

ADVERTISEMENT FOR BIDDERS: Foust Street Flood Gate Installation

LIVIC Civil opens the opportunity for contractors to bid on a flood protection infrastructure project for the Borough of Danville, PA. This project involves the installation of a custom-fabricated flood gate with a manually actuated upward opening, located on the north side of the Foust Street Levee opening.

The flood gate is a critical component in Danville's flood mitigation system and is designed to improve protection for the community during high-water events.

Key Dates:

- Bid Submission Deadline: **June 2, 2025 at 12:00 PM (local time)**
- Bid Opening: **Immediately following bid deadline.**
- Location for Submission: **LIVIC Civil, 29 E Main St, Bloomsburg, PA 17815**

LIVIC Civil invites all qualified contractors to submit their bids for this essential public safety improvement. This project represents a valuable opportunity to support infrastructure resilience and community protection in Danville.
